Power Translator Pro

5 languages Spanish, French, German, Italian, Portuguese

Available online from Amazon.com (remember to access it through the ASGS website link so we get a percentage) for \$89.99 plus shipping.

I have found it very reliable, easy to use, and useful in sending and receiving e-mail and letters to/from my German relatives and Italian friends.

It is contained on one CD.

Other programs are available but often require online subscription for other language translations:
